Total mass of the Earth's atmosphere = 5 quintillion kg  
 80% of the atmosphere's total mass is located in the troposphere  
 50% of the atmosphere's total mass is located in the lowest 5 to 6 km of the troposphere  
 atmospheric pressure = millibar = mb  
 1000 mb = 14.7 pounds per square inch  
 1 km = 3280 = .62 miles  
 1mi = 5280 ft = 1.609 km
