## Student Activity Sheet: Rainfall Data from November 5-8, 2006

### Hunting for the Pineapple Express Activity, Satellites and Weather Teaching Box

The measurements on this page are the total rainfall between November 5-8, 2006 for locations along the West Coast of Canada, the United States, and Mexico.

Fill in the rainfall amounts on the map where you investigated the atmospheric river data to see if the location of precipitation is where you expected as you explore the water vapor data.

Prince Rupert, British Columbia 0 inches
