

► Name: _____

Planning a Rescue Storyboard

UAV-Planning for a Disaster Mission

DIRECTIONS ► Draw and/or write the steps of your rescue story in the six boxes below.

<p>ASK: <i>What is the problem?</i> Draw a picture from the UAV video that describes the problem.</p>	<p>EXPLORE: <i>What are some solution ideas?</i> Draw a picture or use words/phrases that describes some engineering solutions.</p>	<p>DESIGN: Choose the best solution plan. Show how one solution would be designed <u>prior to take off</u>.</p>
<p>CREATE: Follow your plan. Show how your solution would work <u>on the way</u> to the town.</p>	<p>CREATE: Follow your plan. Show how your solution would work during the rescue <u>at the town</u>.</p>	<p>IMPROVE: <i>How did the solution work?</i> Using your imagination, show the result of the rescue. How could you improve?</p>
