

Studying CO₂ from Pole to Pole

Student Sheet #2: Carbon Flow Diagram

Draw arrows on the picture to show how carbon flows during northern hemisphere summer.

Make sure you indicate how carbon flows to or from:

- Northern hemisphere ocean
- Northern hemisphere land
- Atmosphere
- Industrialized northern countries
- Southern hemisphere ocean
- Southern hemisphere land
- Use thick arrows to indicate more carbon flow.
- Use thin arrows to indicate less carbon flow.

You can add any illustrations on the picture to help explain your point.
